

Index to Volume 48 of Mayo Clinic Proceedings

Advertisements have been given page numbers just as have all text pages. If the journal is bound without the advertising, there will be gaps in the page numbers of the bound volume. This is normal and does not indicate that textual material is missing from the bound issues.

- Abdominal arteriography: diagnosis and management of arteriovenous fistula of pancreas and duodenum, 780
- Abdominal emergency: torsion of spleen, 783
- Abnormal gastric secretion; causes and consequences, 644
- Abnormalities of cellular potassium concentration in uncompensated and compensated congestive heart failure, 107
- Abscess, pyogenic liver, 349
- Absorption and digestion of protein, 624
- Absorption, fat, role of ileum in, 836
- Absorptive and secretory function, integration of, 630
- Abuse of prescription drugs, 359
- Academic medicine and American society; interdependent or independent?, 287
- Account of world of difficulties, 368
- Acid and pepsin: abnormal gastric secretion; causes and consequences, 644
- Acquired hyperoxaluria and intestinal disease; evidence that bile acid glycine is not precursor of oxalate, 35
- Actuarial method of analysis: effect of anticoagulant therapy on prognosis of patients with transient cerebral ischemic attacks in community; Rochester, Minnesota, 1955 through 1969, 844
- Addiction-producing drugs: hospitalized pentazocine abusers, 85
- Adson MA, 98
- Afferent loop syndrome: consequences of gastric resection and vagotomy, 653
- Aims, structure, and content of course, 609
- Airline, there is message from—medical school teachers, 294
- Allograft bruit, renal; encouraging finding, 13
- Alpha and beta adrenergic endings: cerebral autonomic nervous system; proposed physiologic function and pathophysiologic response in subarachnoid hemorrhage and in focal cerebral ischemia, 127
- Amino acid composition, isolation, and radioimmunoassay of human brain S 100 protein, 50
- Amino acids: digestion and absorption of protein, 624
- Anatomy, normal, of human cardiac conduction system, 24
- Anderson CF, 13, 280
- Andrèini PH, 340
- Anemia, hemolytic; intense jaundice in infectious mononucleosis, 857
- Anesthetized monkeys and baboons, pulmonary nitrogen clearance during spontaneous respiration in, 800
- Ankylosing spondylitis, spinal osteotomy in; technique, complications, and long-term results, 476
- Anorexia nervosa: Bartter's syndrome; unusual presentation, 280
- Antibodies to porcine calcitonin during treatment of Paget's disease of bone, development of, 43
- Antibody, fluorescent treponemal, absorbed (FTA-ABS) test beading phenomenon in connective tissue diseases, 545
- Anticoagulant therapy, effect of, on prognosis of patients with transient cerebral ischemic attacks in community; Rochester, Minnesota, 1955 through 1969, 844
- Aortic and mitral valve replacement with cloth-covered Braunwald-Cutter valve, 722
- Aortic valve replacement, Magovern-Cromie ball valve prosthesis for, 537
- Arnaud CD, 43, 124
- Arnaud SB, 43
- Arterial biopsy: polyarteritis nodosa in infancy; diagnostic enigma, 773
- Arteriovenous fistula of pancreas and duodenum, diagnosis and management of, 780
- Arteriovenous fistula, renal, unusual cause of—fibromuscular dysplasia of renal arteries, 207
- Artery disease, coronary, early results of vein bypass grafts for, 487
- Arthritis and cutaneous vasculitis, hypocomplementemia with; possible immune complex syndrome, 340
- Arthritis, septic, and osteomyelitis; complications of exchange transfusion, 190
- Assay of platelet factor 4 in plasma, 103
- Assay, two-column plasma catecholamine, laboratory and clinical observations with, 47
- Atrial myxoma, right, echocardiographic diagnosis of, 284
- Atrial septal defect: "paradoxical" septal motion by echocardiography in patient with normal right heart hemodynamics, 31
- Atrioventricular canal, complete, in infants, correction of, 769
- Atrioventricular node: normal anatomy of human cardiac conduction system, 24
- Atypical fibroxanthomas of skin; further observations with 19 additional cases, 211
- Autonomic nervous system: coordination of digestive sequence, 613
- Bacterial enzymes: relationship of diarrhea to maldigestion and malabsorption, 660
- Bacteriologic and clinical study of 44 cases; group A β -hemolytic streptococemia, 336
- Barnes ND, 849
- Baroreflexes, intrathoracic, 426
- Barrett's esophagus, diagnosis of, by per-technate scintigraphy, 276
- Barry MJ Jr, 329
- Bartter's syndrome; unusual presentation, 280
- Beabout JW, 184
- Beading phenomenon in connective tissue diseases, fluorescent treponemal antibody absorbed (FTA-ABS) test, 545
- Beahr OH, 269
- Bear, black, winter sleep in; physiologic and metabolic marvel, 733
- Bed jack, electric, for hiatal hernia, 501

- Bernatz PE, 207
 Berquist TH, 98, 276
 Bianco AJ Jr, 190
 Bile acid deconjugation: digestion of test meals in health and disease, 640
 Bile acid glycine is not precursor of oxalate, evidence that; acquired hyperoxaluria and intestinal disease, 35
 Bile acid malabsorption, consequences of, 656
 Bile acids: cholic acid therapy for constipation; controlled study, 356
 fat, feces, and importance of ileum, 833
 role of ileum in fat absorption, 836
 Biliary tract disease: pyogenic liver abscess, 349
 Bioassays: principles of radioimmunoassay, 637
 Biomedical research: academic medicine and American society; interdependent or independent?, 287
 Biopsies of liver: liver injury associated with methotrexate therapy for psoriasis, 787
 Biopsy, arterial: polyarteritis nodosa in infancy; diagnostic enigma, 773
 Bisacodyl: cholic acid therapy for constipation; controlled study, 356
 Bladder, urinary: Law of Laplace; some Clinical applications, 863
 Blindness following simultaneous bilateral neck dissection, 713
 Blood: complications of exchange transfusion; report of two cases of septic arthritis and osteomyelitis, 190
 Blood clotting: assay of platelet factor 4 in plasma, 103
 Blood flows: renal allograft bruit; encouraging finding, 13
 Blood flows, measured and indocyanine green, in various organs and systems, comparison of, 492
 Blood studies: cytotoxicity of human lymphotoxin for tumor and normal human tissue cells in vitro, 556
 Body composition studies: exercise and urinary nitrogen excretion in two chronically malnourished subjects, 549
 Bone: myxoma of somatic soft tissues; report of 58 patients, 3 with multiple tumors and fibrous dysplasia of bone, 401
 Bone loss: femoral trabecular pattern index for evaluation of spinal osteoporosis; detailed methodologic description, 184
 Bone marrow disorders: studies on diagnostic significance of hemoglobin F levels, 199
 Bone, Paget's disease of, development of antibodies to porcine calcitonin during treatment of, 43
 Bone resorption, subperiosteal, and renal calculi, ectopic hyperparathyroidism with, 124

 Books by Mayo Clinic authors; reviews:
 Chalones: Concepts and Current Researches, by Bernard K. Forscher and John C. Hauck (reviewed by RG Shorter), 870
 Current Methods of Autopsy Practice, by Jurgen Ludwig (reviewed by DM Angevine), 222
 Pancreatitis, by Earl E. Gambill (reviewed by PD Webster III), 742
 Bowel disease, inflammatory, musculoskeletal manifestations of; ulcerative and granulomatous colitis and ulcerative proctitis, 411
 Bowie EJW, 103
 Brackin KL, 718
 Brain: transient cerebral ischemic attacks in community; Rochester, Minnesota, 1955 through 1969, 194
 Brain, human, S 100 protein, isolation, amino acid composition, and radioimmunoassay of, 50
 Braunwald-Cutter valve, cloth-covered, aortic and mitral valve replacement with, 722
 Brennan MD, 541
 Broadbent JC, 722
 Branchogenic carcinoma: preoperative evaluation of patient with pulmonary disease, 114
 Bruit, renal allograft; encouraging finding, 13
 Bundle of His: normal anatomy of human cardiac conduction system, 24
 Burgert EO Jr, 255
 Burke EC, 773
 Bypass experiments: comparison of measured and indocyanine green blood flows in various organs and systems, 492
 Calcitonin, porcine, development of antibodies to, during treatment of Paget's disease of bone, 43
 Calcium-binding protein: isolation, amino acid composition, and radioimmunoassay of human brain S 100 protein, 50
 Calomel and American medical sects during nineteenth century, 57
 Campbell DC, 857
 Cancer and stilbestrol; follow-up of 1,719 persons born 1943-1959 and exposed to estrogens in utero, 793
 Carbenicillin against *Pseudomonas* using disc diffusion method, in vitro activity of, 718
 Carbohydrates, surface digestion of, 620
 Carcinoma, thyroidal: indications for thyroidectomy, 269
 Cardiac arrhythmia: development and performance of Mayo-IBM electrocardiographic computer analysis programs (V70), 260
 Cardiac catheterization: "paradoxical" septal motion by echocardiography in patient with normal right heart hemodynamics, 31
 Cardiac conduction system, human, normal anatomy of, 24
 Cardiac diseases: echocardiographic diagnosis of right atrial myxoma, 284
 Cardiomegaly: polyarteritis nodosa in infancy; diagnostic enigma, 773
 Cardiopulmonary bypass: correction of complete atrioventricular canal in infants, 769
 Cardiovascular system: intrathoracic baroreflexes, 426
